22386 District Councillor's report

UDC are raising awareness of the environment in support of Clean Air Day. PL encouraged residents to respond to the Local Council Tax Support consultation.

The census shows that between 2011 and 2021 Uttlesford District saw the second biggest increase in households in the country – up 18.2%. The only larger growth anywhere was in metropolitan Tower Hamlets, as a direct result of huge housing development following the brown-field redevelopment of the London Olympic Park. Uttlesford is nearly all loss of green fields.

The airport review is due to be published soon.

FL asked if UDC could supply black strips that go across the road to record the amount of traffic and the speed they are traveling. The Traffic Police had recommended that these strips are placed both ends of Stansted Road in Elsenham. The data can then be collated, which may help if ever traffic calming was an option on Stansted Road.
